MEMORANDUM FOR: MAJOR GENERAL AARON

SUBJECT: Monitoring of Advanced Course Students for Loose Talk

1. Per your request, discreet monitoring of public gathering places of Advanced Course students at Fort Bliss and Fort Huachuca was initiated on 13 December 1974 to determine if there was any unauthorized discussion of material presented in lectures by the ACSI and other key members of the military intelligence community.
2. As briefed on 18 December, student gathering areas in and around each installation have been monitored and no discussion of classified information has been detected. Places monitored include officer clubs, both at lunch and during happy-hour, snack bars, book stores, areas outside of classrooms during breaks, and restrooms.
3. It appears that security indoctrination is effective and the students are aware of security and of their responsibilities in regards to the discussion of classified material. Believe the objective of this monitoring has been accomplished and recommend specific monitoring be suspended.
